

# Portable Navigation System

Global Positioning System **GPS**

*Never get lost again with  
Looket Navigation System!*

## Looket N5

GPS Portable Navigation System

**Looket N5** which comes in a slim and sleek design is a powerful portable navigation system with 400MHz CPU based on Win CE.NET 5.0 OS with an embedded high performance GPS (Global Positioning System) receiver and SiRF star III GPS chipset.

Drivers will be able to see their real time location and enjoy the portable GPS navigation system wherever they go with any vehicles if only they bring Looket N5. Furthermore, MP3 Player as a basic feature and Image Viewer, WMV playback function, FM Transmitter and AV-in as optional features will lead drivers to enjoy the real mobile entertainment in addition to the portable navigation. Also Looket N5 offers a built-in TMC version model which supports the function of TMC (Traffic Messaging Channel) as option.

### Features

#### 4.3" Wide View Portable Navigation

Wide view 4.3" TFT LCD with vivid display & high resolution

#### Sleek Compact Design with High Sensitivity GPS Antenna

Compact slim design with a fully built-in GPS antenna provides high performance as well as more stability.

#### Convenient Pre-loaded Map

The maps you need are already installed.

#### Voice Point-to-Point Driving Guide

Voice & visual guidance provides you turn-by-turn directions to your destination.

#### Automatic Route Recalculation

An alternate route will be suggested whenever you take a wrong turn.

#### Trip Planning

Plan trips and optimize routes with the multi-point routing feature.

#### Long Lasting Battery Life

Rechargeable Li-polymer battery is easy-to-use and provides long lasting battery life.
